**If you wanna experience the DooDad vibe you better send an email now to make sure you can attend this FREE show since capacity is limited.**

# Who is Henky Backer?

(Probably the best kept secret in Dutch guitar shredding.....)

## How this unusual shaped guitar became my #1 guitar?

As a little kid I used to look through the window of this huge guitarstore in my hometown and  
you could see hundreds of guitar hanging on the wall.

One day I told my mother when I was gazing through the window again when I'm older and can afford it I want to have that guitar while I was pointing at a guitar which at that point I thought  
was a flying V.

Little did I know, the guitar was hanging behind another guitar and you could only see one side.  
Weeks went by and then my birthday came, my mother hadn't forgot what I said and she bought  
this guitar for me.

You should have seen my face when I opened up the case...

It wasn't a flying V at all, although one side was flying V, the other side was "round".  
I was lost, happy because I got the guitar of my dreams but sad because it turned out completely  
different as I expected.

I couldn't disappoint my dear old mother as she bought it with her hard earned money, so  
bringing it back was out of the question.

So I kept it and it has been with me all along.

I had many guitars over the years but I always came back to this guitar because there simply was  
no other guitar which suited me better, played better or sounded better.

Eventually I got used to the shape and fell in love with it.

About 3 years ago Henky Backer bought 2 DooDad Fashion guitars ( from the 1st run we made) in natural Korina and became fan of our products.

Not only the well known shape but also the playability and sound suits his playing style.

On his website Henky confirms playing our guitars the way they came.

Nothing is changed, Henky plays an factory original guitar.

Frankly as an honour to his Fashion's Henky wrote
